

SOLITON SYSTEMS| www.smart-telecaster.com

Soliton Systems delivers high-quality, real-time video streaming over public mobile networks such as 3G and 4G/LTE. As a result of these features, Soliton's STC HD has been widely adopted by major broadcasters for creative programming, especially for live sports and news.

Smart-telecaster (www.smart-telecaster.com) also delivers high quality, real-time video streaming over public mobile networks such as 3G and 4G/LTE. The Award-winning Smart-telecaster for iOS & android, which uses camera and communication functions on a mobile phone instead of a typical heavy video camera, emphasizes amazing compactness and portability compared to the legacy video transmission system.
